## FOR IMMEDIATE RELEASE

### CALTRANS COMPLETES STATE ROUTE 132 VERNALIS REHABILITATION PROJECT IN SAN JOAQUIN COUNTY

**SAN JOAQUIN COUNTY** – The California Department of Transportation (Caltrans) recently completed a \$32.2 million pavement rehabilitation project on eastbound and westbound State Route 132 (SR-132) near the community of Vernalis in San Joaquin County.

The project rehabilitated the existing pavement on SR-132 from SR-33 to Chrisman Road, as well as the connector ramps to SR-33, while installing rumble strips and Intelligent Transportation Elements (Changeable Message Signs, Highway Advisory Radio, Weather Stations, Traffic Monitoring Systems) from Chrisman Road to the San Joaquin/Stanislaus County line.

Projects like these enhance roadways, improve efficiency and decrease maintenance costs for motorists traveling throughout San Joaquin County.

Caltrans would like to extend our appreciation to motorists, commuters and residents for their patience and cooperation during the SR-132 Vernalis Rehabilitation project.
